

# The new symbol of **Big Data Management** has launched.

**3 Data Exchange.** Corworks allows your company to electronically exchange millions or even a single record with your affiliates at unprecedented speeds. Corworks Relationship Builder is the flexible householding solution that allows you to get a 360° view of your customer in multiple ways.  
**That's connecting with your customer.**

**2 Instant Queries.** Corworks works with your existing hardware and is accessible by our API to work with C, Java, or SAS. Data intelligence created at compression allows 60-70% of all queries to be answered in seconds.  
**That's business intelligence.**

**1 Access data in its compressed form.** We have data giants running 40 TB warehouses of raw data in 8 TB of space.  
**That's millions of dollars in hardware savings.**

## Launch

**Corworks is the best way to store, access, and distribute big data.**

**We're leading the data management revolution.**
